

## Tamworth Co-Operative Society Limited – Gender Pay Gap Report 2024

Tamworth Co-operative Society is an Independent Co-operative retailer in the UK, employing just under 300 colleagues involved in Food Retailing, and the provision of Funeral Services.

We believe in the fair approach to pay for all our colleagues and are confident that men and women are paid equally for the same roles within our business.

### Mean/Median - (Percentage difference between men and women)

	<u>Mean</u>	<u>Median</u>
Average Pay	24.95%	1.72%
Average Bonus	100%	100%

The Society's workforce is 75.3% female and 69.3% of our colleagues are contracted to work on a part -time basis.

We are confident that our gender pay gap is not a pay issue; payments are associated with the role of an individual and our analysis shows that our pay gap is driven by the structure of our workforce.

### Quartile Data (Average number of females / males in each quarter of the workforce)

<u>Quartile</u>	<u>Female</u>	<u>Male</u>
Lower	76%	24%
Second	79%	21%
Third	74%	26%
Highest	62%	38%

### Bonus Participation

	<u>Received</u>	<u>Did not Receive</u>
Male	6.0%	94%
Female	0%	100%

### Staff Profile

The Society has a policy of promoting an environment free from discrimination, harassment and victimisation where everyone receives equal treatment regardless of their gender, colour, ethnic or national origin, disability, age, marital status, sexual orientation or religion. All decisions are based solely upon work criteria and individual merit. The Board is currently composed of three female and six male Directors. Senior Management is made up of three men and two women (previously four men and one woman).

### Review Versus Prior Year

There has been a slight reduction in the percentage variance relating to the average (mean) pay gap. The value has fallen from 25.75% to 24.95%,

Pay reviews during the period were affected by a material rise in the National Living Wage which within our business has the effect of increasing the wages of female colleagues by a higher percentage than male colleagues.
